The Car Hacker's Handbook Craig Smith 2016-03-01 Modern cars are more computerized than ever. Infotainment and navigation systems, Wi-Fi, automatic software updates, and other innovations aim to make driving more convenient. But vehicle technologies haven't kept pace with today's more hostile security environment, leaving millions vulnerable to attack. *The Car Hacker's Handbook* will give you a deeper understanding of the computer systems and embedded software in modern vehicles. It begins by examining vulnerabilities and providing detailed explanations of communications over the CAN bus and between devices and systems. Then, once you have an understanding of a vehicle's communication network, you'll learn how to intercept data and perform specific hacks to track vehicles, unlock doors, glitch engines, flood communication, and more. With a focus on low-cost, open source hacking tools such as Metasploit, Wireshark, Kayak, can-utils, and ChipWhisperer, *The Car Hacker's Handbook* will show you how to: --Build an accurate threat model for your vehicle --Reverse engineer the CAN bus to fake engine signals --Exploit vulnerabilities in diagnostic and data-logging systems --Hack the ECU and other firmware and embedded systems --Feed exploits through infotainment and vehicle-to-vehicle communication systems --Override factory settings with performance-tuning techniques --Build physical and virtual test benches to try out exploits safely If you're curious about automotive security and have the urge to hack a two-ton computer, make *The Car Hacker's Handbook* your first stop.

Auto Repair For Dummies Deanna Sclar 2019-01-07 Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as **Auto Repair For Dummies, 2nd Edition (9780764599026)**. While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

MrQuickPick's 1-2-3 Business Plan to Unlocking Cars for Profit! Jon Taylor 2014-01-14 Did you ever wonder how much money the person who just unlocked your car actually makes for a living? He just charged you \$60 for thirty seconds of actual work, but surely he doesn't get to keep all of it, or does he? He must have overhead, a storefront, expensive equipment and years of training? Maybe...or just maybe he works from home, out of his car, with minimal tools and experience, advertising online and pocketing \$200-\$300+ per day. Perhaps he's knocking down six-figures a year, driving around town providing roadside services to other people who are trying to get to their "real" jobs (working for someone else). Meet Jon Taylor, founder of Quick Pick Lockout Service and MrQuickPick™ Lock & Road Service. A former hotel manager, Jon would often assist his guests with their automotive needs, calling on auto clubs to help with a tire change, dead battery or keys locked in a car. Sometimes it would take so long for help to arrive that he would simply grab some tools and do it himself. That's when he realized he could put his own business savvy and strong work ethic into starting and running his own "lock & road" service. His company, Quick Pick Lockout Service, would gross over half a million dollars in it's first three years and, in the process, win AAA's prestigious Member's Choice Award for three consecutive years. What started as a small business venture unlocking cars with a friend quickly turned into a multi-state enterprise! He has since taken this model for success and helped numerous others (including disabled veterans, like himself) get into business for themselves as MrQuickPick™ licensees within their own hometowns. Now MrQuickPick™ take's you step-by-step through the entire process, covering everything from the tools and training to the successful marketing plan that enables this business model to thrive for practically anyone, anywhere!
