**The Age of Fallibility George Soros 2007-06-26** After reflecting on his support of a losing Democrat for president, George Soros steps back to revisit his views on why George Bush's policies around the world fall short in the arenas most important to Soros: democracy, human rights and open society. As a survivor of the Holocaust and a life-long proponent of free expression, Soros understands the meaning of freedom. And yet his differences with George Bush, another proponent of freedom, are profound. In this powerful essay Soros spells out his views and how they differ from the president's. He reflects on why the Democrats may have lost the high ground on these values issues and how they might reclaim it. As he has in his recent books, *On Globalization* and *The Bubble of American Supremacy*, Soros uses facts, anecdotes, personal experience and philosophy to illuminate a major topic in a way that both enlightens and inspires.

**Drives Like a Dream Porter Shreve 2006-08-09** "A hilarious family tale" about a modern-day mother's lifestyle crisis—and her outlandish attempts to get her family back (Woman's Day). Lydia Modine is sixty-one and about to come undone. Her three grown-up children have flown the coop. She hasn't seen them together in more than a year, and now her ex-husband is about to marry a woman half his age. And the insults keep coming: Lydia is stuck on a book she's writing about Detroit's car industry, which uncannily parallels her own life—out with the old model, in with the new. She's poured her soul into her family, only to be abandoned in the City of Dream Machines. But then a twist of fate introduces her to Norm, an eco-car fanatic out to remake her and the world. A "smart and funny" novel that's sure to appeal to anyone who has longed for an alternate life, *Drives Like a Dream* confirms that sometimes when you set out for a spin, the twists and turns can be perfectly rewarding—and right (Chicago Tribune). "A beautiful novel."

London in the nineteenth century was the greatest city mankind had ever seen. Its growth was stupendous. Its wealth was dazzling. Its horrors shocked the world. We see how Londoners worked, played, and adapted to the demands of the metropolis during this century of dizzying change. The result is a panorama teeming with life.

**Yvain Chretien de Troyes 1987-09-10** The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, *Yvain*, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. *Yvain* is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

**The Wheat Rusts — Breeding for Resistance Douglas R. Knott 2012-12-06** The idea for this book was conceived by the late Dr. Irvine A. Watson of the University of Sydney, and he developed the first outline. I was then invited by Dr. Watson to share in his writing. Unfortunately, shortly thereafter, recurring heart problems forced him to curtail his activities and withdraw from the project. He died before the book could be completed. Dr. Watson's intention was to produce a very practical book that would provide wheat breeders with all of the information necessary to breed success fully for resistance to the three wheat rusts: leaf rust, stem rust, and yellow rust. It was intended to be very specific in describing procedures to be used and at the same time provide all of the necessary theoretical background. I hope that I have been successful in meeting these objectives. The book assumes that the reader has some knowledge of plant pathology, genetics, and plant breeding. Extensive use has been made of the literature, but it was not possible to cite all of the papers on a given topic. In making a choice, an attempt was made to choose key papers or more recent papers that provided references to the earlier literature. **Acknowledgements** This book was written partly at the University of Saskatchewan and partly at the University of California, Davis, while I was on a sabbatical leave.
