Business Ethics Joseph W. Weiss 2014-07-14 NEW EDITION, REVISED AND UPDATED This is a pragmatic, hands-on, up-to-date guide to determining right and wrong in the business world. Joseph Weiss integrates a stakeholder perspective with an issues-oriented approach so students look at how a business's actions affect not just share price and profit but the well-being of employees, customers, suppliers, the local community, the larger society, other nations, and the environment. Weiss uses a wealth of contemporary examples, including twenty-three customized cases that immerse students directly in recent business ethics dilemmas and ask them to consider how they would resolve them. The recent economic collapse raised ethical issues that have yet to be resolved—there could not be a better time for a fully updated edition of Weiss's classic, accessible blend of theory and practice. New to the Sixth Edition! New Cases! Fourteen of the twenty-three cases in this book are brand new to this edition. They touch on issues such as cyberbullying, fracking, neuromarketing, and for-profit education and involve institutions like Goldman Sachs, Google, Kaiser Permanente, Walmart, Ford, and Facebook. Updated Throughout! The text has been updated with the latest research, including new national ethics survey data, perspectives on generational differences, and global and international issues. Each chapter includes recent business press stories touching on ethical issues. New Feature! Several chapters now feature a unique Point/Counterpoint exercise that challenges students to argue both sides of a contemporary issue, such as too-big-to-fail institutions, the Boston bomber Rolling Stone cover, student loan debt, online file sharing, and questions raised by social media.

Last Child in the Woods Richard Louv 2008-04-22 "The children and nature movement is fueled by this fundamental idea: the child in nature is an endangered species, and the health of children and the health of the Earth are inseparable." —Richard Louv, from the new edition in his landmark work *Last Child in the Woods*. Richard Louv brought together cutting-edge studies that pointed to direct exposure to nature as essential for a child's healthy physical and emotional development. Now this new edition updates the growing body of evidence linking the lack of nature in children's lives and the rise in obesity, attention disorders, and depression. Louv's message has galvanized an international back-to-nature campaign to "Leave No Child Inside." His book will change the way you think about our future and the future of our children. "[The] national movement to 'leave no child inside' . . . has been the focus of Capitol Hill hearings, state legislative action, grass-roots projects, a U.S. Forest Service initiative to get more children into the woods and a national effort to promote a 'green hour' in each day. . . . The increased activism has been partly inspired by a best-selling book, *Last Child in the Woods*, and its author, Richard Louv." —*The Washington Post* "Last Child in the Woods, which describes a generation so plugged into electronic diversions that it has lost its connection to the natural world, is helping drive a movement quickly flourishing across the nation." —*The Nation's Health* "This book is an absolute must-read for parents." —*The Boston Globe* Now includes *A Field Guide with 100 Practical Actions We Can Take Discussion Points for Book Groups, Classrooms, and Communities Additional Notes by the Author New and Updated Research from the U.S. and Abroad*

Barbarians Barrie Keeffe 2015-11-04 It's 1977. Youth unemployment is at an all-time high and the pound is at an all-time low. Paul, Jan and Louis are bored, broke and demoralized by the hand that they've been dealt. How will these young lads fair with the odds stacked against them? How will they cope? Cut off from society with no-where to turn, the play resonates with a modern audience who will no doubt recognize the disaffected youth of 1970s Britain. Barrie Keeffe's tragically dark play crackles with tension throughout, building to a twisted and dramatic end. This programme text edition was published to coincide with the revival of the play by Tooting Arts Club on 3rd October 2015, staged at the former Central St Martins School of Art on the Charing Cross Road, London.

Cities in Time Ali Madanipour 2017-02-23 From street-markets and pop-up shops to art installations and Olympic parks, the temporary use of urban space is a growing international trend in architecture and urban design. Partly a response to economic and ecological crisis, it also claims to offer a critique of the status quo and an innovative way forward for the urban future. *Cities in Time* aims to explore and understand the phenomenon, offering a first critical and theoretical evaluation of temporary urbanism and its implications for the present and future of our cities. The book argues that temporary urbanism needs to be understood within the broader context of how different concepts of time are embedded in the city. In any urban place, multiple, discordant and diverse timeframes are at play – and the chapters here explore these different conceptions of temporality, their causes and their effects. Themes explored include how institutionalised time regulates everyday urban life, how technological and economic changes have accelerated the city's rhythms, our existential and personal senses of time, concepts of memory and identity, virtual spaces, ephemerality and permanence.

Broca's Brain Carl Sagan 2011-07-06 A fascinating book on the joys of discovering how the world works, by the Pulitzer Prize-winning author of *Cosmos* and *Shadows of Forgotten Ancestors*. "Magnificent . . . Delightful . . . A masterpiece. A message of tremendous hope for humanity . . . While ever conscious that human folly can terminate man's march into the future, Sagan nonetheless paints for us a mind-boggling future: intelligent robots, the discovery of extraterrestrial life and its consequences, and above all the challenge and pursuit of the mystery of the universe."—*Chicago Tribune* "Go out and buy this book, because Carl Sagan is not only one of the world's most respected scientists, he's a great writer. . . . I can give a book no greater accolade than to say I'm planning on reading it again. And again."—*The Miami Herald* "The brilliant astronomer . . . is persuasive, provocative and readable."—*United Press International* "Closely reasoned, impeccably researched, gently humorous, utterly devastating."—*The Washington Post*

The Lost Book of Sun Yatsen and Edwin Collins Patrick Anderson 2016-11-25 Sun Yatsen (1866-1925) occupies a unique position in modern Chinese history: he is equally venerated as the founding father of the nation by both the mainland Communist government and its Nationalist rival in Taiwan. The first president of the Republic of China in 1911-12, the peasant-born yet Western-trained Dr Sun was also a dedicated political theorist, constantly in search of the ideal political and constitutional blueprint to underpin his incomplete revolution. A decade before the public emergence in Japan of his 'Three Principles of the People', and weeks before even his first slim publication in 1897, Kidnapped in London, Sun was already hard at work in the Reading Room of the British Museum, planning his most ambitious book yet: a comprehensive political treatise in English on the tyrannical misgovernment of the Chinese nation by the Manchus of the Qing Dynasty. Started then abandoned twice over, destined never to be completed, let alone published, we can only conjecture what title this revolutionary book might have had. *The Lost Book of Sun Yatsen and Edwin Collins* is the first study of this lost work in all scholarship, Western or Chinese. It draws its originality and its themes from three primary sources, all presented here for the first time. The first is a series of interconnected lost writings co-authored by Sun Yatsen between 1896 and 1898. The second is the mass of lost political interviews with, and articles dedicated to, Sun Yatsen and his politics, first published in the British press in the aftermath the dramatic world-famous rescue of Sun from inside the Chinese Legation in London in 1896. The third source is the 'Apostle of the Simple Life for Children', the Anglo-Jewish Rabbi Edwin Collins (1858-1936), a devotee and practitioner of Jean-Jacques Rousseau's *Emile* and the New Education movement it inspired, who became Sun's writing collaborator of choice during his years of political exile from China. Drawing on this wealth of neglected material, Patrick Anderson's book offers a genuinely fresh perspective on Sun Yatsen and his political motivations and beliefs.

Winesburg, Ohio (A Group of Tales of Ohio Small-Town Life) Sherwood Anderson 2013-08-20 This carefully crafted ebook: "Winesburg, Ohio (A Group of Tales of Ohio Small-Town Life)" is formatted for your eReader with a functional and detailed table of contents. This ebook is a series of loosely linked short stories set in the fictional town of Winesburg, mostly written from late 1915 to early 1916. The stories are held together by George Willard, a resident to whom the community confide their personal stories and struggles. The townspeople are withdrawn and emotionally repressed and attempt in telling their stories to gain some sense of meaning and dignity in an otherwise desperate life. The work has received high critical acclaim and is considered one of the great American works of the 20th century. Sherwood Anderson (1876 – 1941) was an American novelist and short story writer, known for subjective and self-revealing works. Anderson published several short story collections, novels, memoirs, books of essays, and a book of poetry. He may be most influential for his effect on the next generation of young writers, as he inspired William Faulkner, Ernest Hemingway, John Steinbeck, and Thomas Wolfe.

Objects of Affection Ewa Hryniewicz-Yarbrough 2018-01-31 Literary Nonfiction. Ewa Hryniewicz-Yarbrough arrived in the United States from Poland in 1984, bringing memories of life under a totalitarian regime, where the personal was always political. In essay after essay in *OBJECTS OF AFFECTION*, her remarkable debut, Hryniewicz-Yarbrough shows the immigrant's double perspective, exploring a "bi-polar" world of displacement and rootlessness, geography and memory, individual and family history, always with an acute awareness of losses and gains that accompany adaptation to a new language and culture and the creation of a new identity.

The Luminaries Eleanor Catton 2013-10-15 The winner of the Man Booker Prize, this "expertly written, perfectly constructed" bestseller (*The Guardian*) is now a Starz miniseries. It is 1866, and Walter Moody has come to stake his claim in New Zealand's booming gold rush. On the stormy night of his arrival, he stumbles across a tense gathering of 12 local men who have met in secret to discuss a series of unexplained events: a wealthy man has vanished, a prostitute has tried to end her life, and an enormous cache of gold has been discovered in the home of a luckless drunk. Moody is soon drawn into a network of fates and fortunes that is as complex and exquisitely ornate as the night sky. Richly evoking a mid-nineteenth-century world of shipping, banking, and gold rush boom and bust, *The Luminaries* is at once a fiendishly clever ghost story, a gripping page-turner, and a thrilling novelistic achievement. It richly confirms that Eleanor Catton is one of the brightest stars in the international literary firmament.

Congregational Hermeneutics Andrew P. Rogers 2016-05-20 Despite many churches claiming that the Bible is highly significant for their doctrine and practice, questions about how we read the Bible are rarely made explicit. Based on ethnographic research in English churches, *Congregational Hermeneutics* explores this dissonance and moves beyond descriptions to propose ways of enriching hermeneutical practices in congregations. Characterised as hermeneutical apprenticeship, this is not just a matter of learning certain skills, but of cultivating hermeneutical virtues such as faithfulness, community, humility, confidence and courage. These virtues are given substance through looking at four broad themes that emerge from the analysis of congregational hermeneutics - tradition, practices, epistemology and mediation. Concluding with what hermeneutical apprenticeship might look like in practice, this book is constructively theological about what churches actually do with the Bible, and will be of interest to scholars, students and practitioners.

The Fall of Heaven Andrew Scott Cooper 2016-08-02 An immersive, gripping account of the rise and fall of Iran's glamorous Pahlavi dynasty, written with the cooperation of the late Shah's widow, Empress Farah, Iranian revolutionaries and US officials from the Carter administration In this remarkably human portrait of one of the twentieth century's most complicated personalities, Mohammad Reza Pahlavi, Andrew Scott Cooper traces the Shah's life from childhood through his ascension to the throne in 1941. He draws the turbulence of the post-war era during which the Shah survived assassination attempts and coup plots to build a modern, pro-Western state and launch Iran onto the world stage as one of the world's top five powers. Readers get the story of the Shah's political career alongside the story of his courtship and marriage to Farah Diba, who became a power in her own right, the beloved family they created, and an exclusive look at life inside the palace during the Iranian Revolution. Cooper's investigative account ultimately delivers the fall of the Pahlavi dynasty through the eyes of those who were there: leading Iranian revolutionaries; President Jimmy Carter and White House officials; US Ambassador William Sullivan and his staff in the

American embassy in Tehran; American families caught up in the drama; even Empress Farah herself, and the rest of the Iranian Imperial family. Intimate and sweeping at once, *The Fall of Heaven* recreates in stunning detail the dramatic and final days of one of the world's most legendary ruling families, the unseating of which helped set the stage for the current state of the Middle East.

The Slave Trade Hugh Thomas 2013-04-16 After many years of research, award-winning historian Hugh Thomas portrays, in a balanced account, the complete history of the slave trade. Beginning with the first Portuguese slaving expeditions, he describes and analyzes the rise of one of the largest and most elaborate maritime and commercial ventures in all of history. Between 1492 and 1870, approximately eleven million black slaves were carried from Africa to the Americas to work on plantations, in mines, or as servants in houses. *The Slave Trade* is alive with villains and heroes and illuminated by eyewitness accounts. Hugh Thomas's achievement is not only to present a compelling history of the time but to answer as well such controversial questions as who the traders were, the extent of the profits, and why so many African rulers and peoples willingly collaborated. Thomas also movingly describes such accounts as are available from the slaves themselves.

My Life in France Julia Child 2006-04-04 NATIONAL BESTSELLER • Julia's story of her transformative years in France in her own words is "captivating . . . her marvelously distinctive voice is present on every page." (*San Francisco Chronicle*). Although she would later singlehandedly create a new approach to American cuisine with her cookbook *Mastering the Art of French Cooking* and her television show *The French Chef*, Julia Child was not always a master chef. Indeed, when she first arrived in France in 1948 with her husband, Paul, who was to work for the USIS, she spoke no French and knew nothing about the country itself. But as she dove into French culture, buying food at local markets and taking classes at the Cordon Bleu, her life changed forever with her newfound passion for cooking and teaching. Julia's unforgettable story—struggles with the head of the Cordon Bleu, rejections from publishers to whom she sent her now-famous cookbook, a wonderful, nearly fifty-year long marriage that took the Childs across the globe—unfolds with the spirit so key to Julia's success as a chef and a writer, brilliantly capturing one of America's most endearing personalities.

Protestantism after 500 Years Thomas Albert Howard 2016-07-01 The world stands before a landmark date: October 31, 2017, the quinqucentennial of the Protestant Reformation. Countries, social movements, churches, universities, seminaries, and other institutions shaped by Protestantism face a daunting question: how should the Reformation be commemorated 500 years after the fact? In this volume, leading historians and theologians, Protestant and Catholic, come together to grapple with this question and examine the historical significance of the Reformation. Protestantism has been credited for restoring essential Christian truth, blamed for disastrous church divisions, and invoked as the cause of modern liberalism, capitalism, democracy, individualism, modern science, secularism, and so much else. This book examines the historical significance of the Reformation and considers how we might expand and enrich the ongoing conversation about Protestantism's impact. The contributors conclude that we must remember the Reformation not only because of the enduring, sometimes painful religious divisions that emerged from this era, but also because a historical understanding of the Reformation is necessary for promoting ecumenical understanding and thinking wisely about the future of Christianity.

Dogs in the Leisure Experience Neil Carr 2014-11-19 This book explores the social and cultural constructions and debates of what are dogs and what is leisure. Within the setting of the animal welfare and sentience debates, it examines the leisure needs of dogs and their owners. Providing an original contribution to our understanding of dogs as both participants and objects in the leisure experience, this book is a useful resource for researchers in leisure, hospitality and tourism.

English Ministry Crisis in Chinese Canadian Churches Matthew Richard Sheldon Todd 2015-03-26 In this book, Dr. Matthew Todd looks into the anecdotal reporting of high numbers of Canadian-born Chinese leaving Western Canadian Chinese churches—what is termed the silent exodus. Some of the fastest-growing Canadian churches are Chinese, yet reportedly the highest dropout rates are among Chinese and Asian church adult ministries. This book recommends solutions towards the retention of Canadian-born Chinese adults in Chinese bicultural churches through empowerment. To address retention, the key factors that contribute to a silent exodus are established through qualitative research with participants of diverse church affiliations. Todd examines various models and proposed solutions the Chinese church has used to retain its English-speaking congregants, and gives attention to a theological basis for being inclusive in mission initiatives and for empowerment through passing the leadership baton. Todd makes some recommendations on the new wave of an emerging congregational model that requires negotiation with Chinese church leadership to give power away to English ministry leaders and congregations. He anticipates that this will permit transformational leadership practices that contribute to shalom, community transformation, and lasting congregations.

Strengthening Forensic Science in the United States National Research Council 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

The Edge of the Sea RACHEL CARSON 2021-03-04 In *The Edge of the Sea* Rachel Carson introduces us to the 'strange and beautiful place' where the sea meets the land. She explores a tide pool, an inaccessible cave, and watches a lone crab on the shore at midnight. From these, and other, encounters she offers us not just a scientifically accurate study of the ecology of the seashore, but also a hauntingly beautiful account of the fragile balance of life found at the edge of the sea. *The Edge of the Sea*, like all her writing, sounds a prophetic alarm for the damage mankind is doing to the natural world, but also offers us inspiration: here is beauty, here is something worth saving.
